

2025/2026 Agassiz Pro Shop Demo Skis

BLUE = Fan favorite equipment of previous years, or highly recommended.

Atomic Bent 110

Light, versatile and directional. A great all mountain ski. The underfoot and enhanced rocker allows for more float in powder if needed. Tailored towards powder skiing, but can still handle groomers. A fan favorite of the demo program.

Won ski of the year in 2022.

Sizes: 179, 172, 165

Retail from \$800

Dynastar M-Pro-94

A playful freeride ski designed to tackle it all. The Titanal technology and progressive rocker on this ski provides for smooth initiations into turns and a solid hold throughout every carve while the 94mm underfoot gives enough float to skim through powder with the same fluid feeling as if you were on fresh groomer tracks.

Sizes 178, 170, 162

Retail from \$800

Elan Playmaker 91

“The swiss army knife of freeride twins” A playful feeling ski that is great for anywhere on the mountain. This narrow model of the Playmaker still has the origins of a powder ski but is nimble enough to turn easily on fresh groomers. Carbon rods add to the poppy and fun personality of this ski.

Sizes 180, 172, 164

Retail from \$800

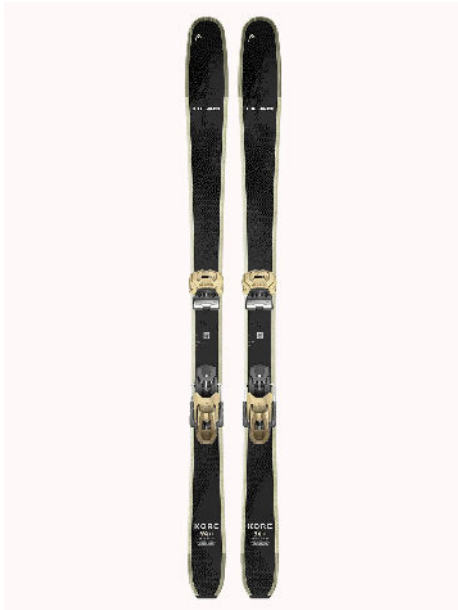

Nordica Unleashed 98

A playful and maneuverable freeride ski designed to take you anywhere on the mountain. The profile of this ski is geared towards powder with enhanced rocker in the tip and tail with a wide waist. Carbon rods and Nordica's “Terrain specific metal” inside the ski improve the stiffness and edge contact for excellent performance in any terrain.

Sizes 180, 174, 168

Retail from \$850

Head Kore 94

Redesigned from last year's model, the new and improved Kore offers excellent control on groomers thanks to additional layers of titanal, the long radius of the ski keeping it stable at high speeds, and the updated construction of the ski allows for quick, controlled and responsive turns while the early rise rocker and a camber underfoot provide a smooth ride even in deep powder.

Sizes 184, 177, 170

Retail from \$850

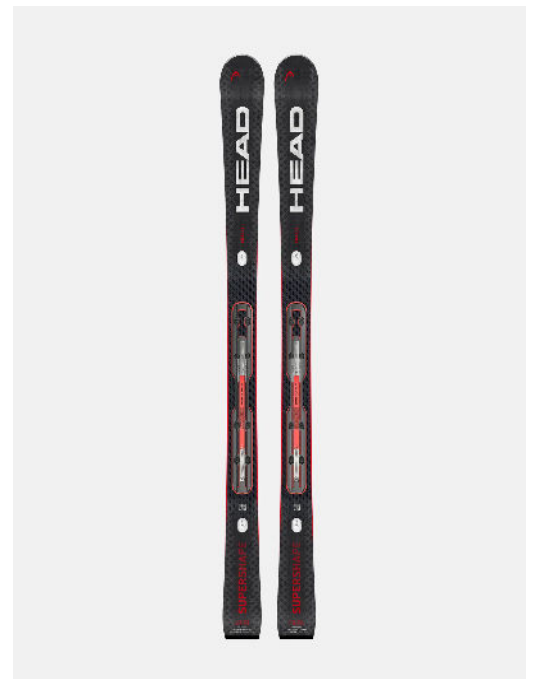

Head Supershape E-rally

An all-mountain ski with the technology and inspiration of a race ski, the Supershape E-rally is perfect for cruising on piste. Easy initiation, strong power delivery and solid edge grip are all hallmarks of this ski loaded with technology for the best possible performance.

Sizes 177, 170, 163

Retail from \$1,200

Atomic Maverick 88 Ti

A fan favorite of years past the Maverick 88Ti is a quiver killer, stiff enough to handle tough turns on groomers and moguls but with a design and profile able to cruise through powder days. The Maverick can do it all with an edge to edge “dura cap” sidewall and titanal reinforced core, this ski is always a solid option.

Sizes 179, 172, 165

Retail from \$850

Faction Dancer 1

An excellent all mountain ski designed for a nimble, smooth and stable experience skiing on piste. The Dancer 1 lives up to its name with a fluid feel that is lightweight and easy to turn in all conditions. Flashy and bold this ski is perfect for dancing across the mountain.

Sizes 178, 170, 162

Retail from \$849

Faction Prodigy 2

An all mountain directional twin ski with the pedigree of a park ski, This fun, floaty, and poppy ski is great anywhere on the mountain. Has plenty of stability and is durable enough to handle anything you throw at it.

Sizes 177, 171, 165

Retail from \$750

Faction Dancer 79

Built for those that want to be the highlight of the mountain. The profile of the ski is designed around groomed trails with minimal rocker and a parabolic shape. In addition to the Titanal sheets ensure sharp turns with a bit of pop to the ski.

Sizes 178, 172, 166

Retail from \$779

Salomon N QST 94

An all-mountain ski with a freeride profile. The 94mm underfoot and wide radius bridge the gap between all mountain and free ride design for a versatile and smooth performance in any snow from solid turns to float on powder. Salomon uses a unique Cork Damplifier that is more absorbent of vibrations while making the ski lighter.

Sizes 180, 172, 164

Retail from \$750

M-Pro W 92

This women's ski comes packed with tech like the “Hybrid Core 2.0” that blends materials for the performance of wood with the lightweight and smooth ride of Polyurethane and fiberglass. Along with the progressive rocker for clean initiation of turns and adequate float in powder. This provides this ski with the power and agility you can expect from Dynastar's pro line of skis in a smaller lighter profile without compromising on performance.

Sizes 162, 154, 146

Retail \$800

Atomic Maven 86c

The sister ski of the Atomic Maverick, the Maven delivers the same excellent performance in a lighter package. The carbon construction and camber profile provide a responsive feel while the tip rocker and shovel taper give a floaty and controlled feel even in powder.

Sizes 159, 153, 147

Retail from \$725

Head Absolute Joy

An easygoing and enjoyable ski for all types of skiers. Very forgiving and smooth but still very capable and versatile with a range of tech inside the ski including Head's "Energy Management Circuit" which dampens vibrations for an especially smooth ride.

Sizes 158, 153, 148

Retail from \$825

2025/2026 Agassiz Pro Shop Demo Snowboards

Blue = Fan favorite equipment of previous years, or highly recommended.

LibTech TRice Pro

Freestyle, All-mountain, Twin board. Lightweight and versatile board ready to tackle any terrain and still playful enough for any freestyle expression. Featuring Libtech's "Balanced C2 hybrid camber" profile and "Magnetraction" technologies for a smooth ride and firm grip on turns in rough terrain or groomed trails. (Flex rating 7/10)

Sizes 164W, 157W, 153

Retail from \$700

Lib Tech Orca

All mountain, directional, powder board. The Orca has all terrain tech including lib techs serrated edge "Magnetraction" technology that holds onto firm snow as well as powder. The shovel nose and tapered tail will have this board floating over the wildest terrain. Recommended for intermediate to advanced riders. (Flex rating 7/10)

Sizes 159, 156, 153

Retail from \$700

Gnu Gremlin

All mountain snowboard, directional shape. Built to sail through any terrain, Libtech's "Magnetraction" technology carves up hardpack and intensifies your turns. The wide nose and poppy camber lets you float on top of powder and seek out your favorite trails on a board that can do it all. (Flex rating 6/10)

Sizes 158, 155, 152

Retail from \$580

Nitro T1

Freestyle board that has a twin shape with Nitro's "Cam-out camber" profile for a forgiving and responsive feel and smooth turn initiations. This friendly board is perfect for those exploring their riding style and new ways to express themselves. (Flex rating 5.5/10)

Sizes 155W, 152

Retail from \$530

Capita Slush Slasherz

Directional powder and spring slush shredder. The elongated nose and vacation tail let this board cruise over powder. Powder slashing with a freeride surfy feel with an unparalleled sense of style. (Flex rating 4/10)

Sizes 155, 147

Retail from \$400

Capita Indoor Survival

Features a controlled ride in a true twin profile thanks to its metal core, "Titanal centerline boosters" and "Death grip" technology from Capita maximizing the performance of this buttery board. The camber profile makes this board better on groomers than in powder. (Flex rating 5/10)

Sizes 158W, 154

Retail from \$580

Academy Master Series

A true all mountain snowboard with “no gimmicks” built to please and build experience for every rider. Can perform nearly anywhere in nearly any condition thanks to the moderate flex and set back stance for a delicate balance of capability and fun in a durable package.

(Flex rating 7/10)

Sizes 162W, 155

Retail from \$639

Academy Propa-Camba

The micro camber profile featured on this board allows it to be playful and responsive. Moderate flexibility, low profile tip and tail, and a centered stance allows you to cruise in almost any style. Pop through powder or coast on fresh groomers. (Flex rating 7/10)

Sizes 156W, 153

Retail from \$589

United Shapes Horizon

Newly redesigned on the boundaries between all-mountain and freestyle boards. The directional profile, traditional camber and early rise nose allow you to express yourself in any way you'd like on any run you'd like. (Flex rating 6/10)

Sizes 155, 151

Retail from \$699

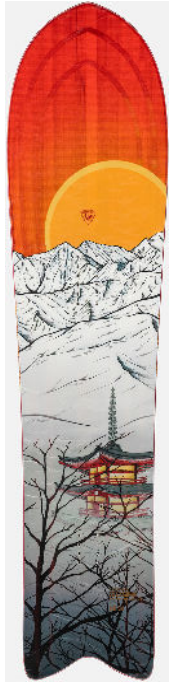

United Shapes Object

midflex freestyle twin profile. Freestyle board, playful, forgiving and approachable. Carbon stringer and positive camber for stability and maneuverability. (Flex rating 5/10)

Sizes 156, 152

Retail from \$599

Rossignol Sushi

Japow slashing surfy board. Smooth versatile ride built for the powder with grip, pop and stability in mind. “L.I.T.E frame core” tech, Urethane strip around the perimeter and “Transitions Radcut” combines traditional and reverse sidecut profiles, making the Sushi easier to move at low speed and more stable at high speed. (Flex rating 6/10)

Sizes 145W, 144

Retail from \$550

Rossignol Super Revenant

All mountain, twin board and stiff underfoot. Also features Rossignols “radcut” tech and serrated edges for additional edge hold and grip. Slice up groomers and rough terrain. (Flex rating 8/10)

Sizes 159W, 154

Retail from \$650

Salomon Dance Haul

Tapered directional shape, for wicked agility in almost any conditions, wide platform for float and additional pop. Salomon “Rock out” hybrid camber profile and medium flex that gives plenty of pop for freestyle riding. (Flex rating 6/10)

Sizes 157, 152

Retail from \$500

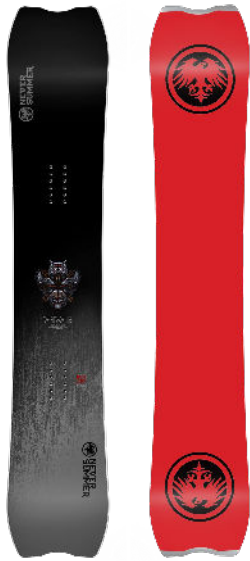

Nitro Cannon

can't talk about this board without mentioning the distinctive swallow tail designed to float through powder and enhance turning. The rest of the board is designed to give a fun, responsive and forgiving feel with powerful turns and of course shred through powder. (Flex rating 7/10)

Sizes 203, 173

Retail from \$630

Never Summer V Twin

“Energetic and responsive” Twin shaped board with a distinctive silhouette letting you have the power and play you want. Features Never Summers “Hybrid triple camber” profile designed to enhance turns with a forgiving but capable feel that adds to the do anything personality of this board. (Flex rating 6/10)

Size 157

Retail from \$700

Whitespace Montano

Directional, hybrid camber shape, “surf-inspired” profile for a playful feel that is enhanced by a carbon fiberglass construction. All mountain board with the stability and power to tackle early morning groomers or powder. (Flex rating 6/10)

Sizes 160, 155, 152

Retail \$659

Capita Paradise

An all terrain all-mountain snowboard. Forgiving and fun to ride thanks to a camber underfoot and rockered tip and tail for smooth turns and float in powder. A lightweight and versatile option sure to please almost anyone. (Flex rating 5/10)

Sizes 151, 147

Retail from \$500

Gnu Ladies Choice

All-mountain, freestyle snowboard with an asymmetrical twin profile. The hybrid camber profile provides a combination of power and control for fresh turns but still maintains a playful and floaty spirit with a bit of pop for freestyle flow. (Flex rating 5/10)

Sizes 151.5, 148.5

Retail from \$630

Gnu Free Spirit

Floaty powder board with a freestyle spirit. Able to ride anyway you want, rough terrain, big jumps and fresh powder. Features “Lib tech C3” camber profile and “Magnetraction” technology for both a floaty fun feel and enhanced grip for every turn.

(Flex rating 7/10)

Sizes 153, 148

Retail from \$630

Rossignol After Hours

Directional board with all-mountain flex and personality of a twin board in the powder. Hybrid camber profile for explosive edge grip and pop. Rossignol “Radcut” profile gives agility and stability at variable speeds. L.I.T.E. FRAME core technology delivering full-length shock absorption for enhanced maneuverability, playfulness and ultra-smooth ride control. Mid-flex for any freestyle riding. (Flex rating 7/10)

Size 153

Retail from \$600

Never Summer Cirrus

Volume shifted board. Friendly with grip, float and stability at any speed on any terrain. Moderate flex and profile. Features Never Summer's "Hybrid triple camber" profile for enhanced turns and edge hold. (Flex rating 5/10)

Sizes 149, 145

Retail from \$630
